**Subject:** Sufco Mine - Rock Pond & Johnsons Pond Pictures 08-04-05

As a follow-up to the Emery County Water Users Quarterly meeting held in Castle Dale on July 28, 2005 on the discussion brought up by some members of the group on the dry stock ponds affected by the Sufco mine with cracks in the drainages intercepting all the runoff water before it gets to some of the ponds such as Rock Pond & Johnsons Pond. Here are some pictures taken yesterday of the ponds while Chris Hansen, Erik Petersen and I were on top monitoring the new SITLA Muddy Tract lease area. As you can see from the pictures, these ponds did collect water from the recent rain-fall we had the first part of this week.

Thanks,  
Mike Davis
